

OSHETSKI IMPLANT SEMINARS

Complications in Dental Implantology: A Three Part Series

PART I: Prevention and Treatment of Prosthetic Complications

Jan. 19, 2018 8:30-3:30 (6 CEU)

Fee: \$345. Register for all three courses: \$950

Objectives:

1. Learn key differences in mechanical and biological differences in a dental implant and natural tooth.
2. Consider important dental implant positions in single and full-arch rehabilitation scenarios.
3. Identify common errors in full-arch tooth position, intra-arch position and functional complications.
4. Discuss digital workflow and its influence on restorative-driven implantology.
5. Understand causes and avoidance of anterior esthetic implant failures.
6. Learn about full-arch fixed prosthetics and keys to complication avoidance.
7. Discuss common complications with full-arch removable implant prosthetics and avoidance.
8. Learn the role of computerized occlusal analysis in complication avoidance.
9. Discuss ideal implant-protected occlusal schemes in fixed and removable restorations.
10. Learn the etiology and treatment options of peri-implant mucositis and peri-implantitis
11. Learn criteria for a healthy implant abutment, finish line, emergence and customization.
12. Discuss abutment, screw retained and cement-related complications and their treatment.
13. Consider patient specific parameters, prosthetic materials, characteristics and applications.

PART II: Pharmacological and Oral Medicine Considerations in Implant Dentistry

Mar. 16, 2018 8:30-3:30 (6 CEU)

Fee: \$345. Register for all three courses: \$950

Objectives:

1. Discuss the most commonly prescribed medications and their influence on dental implant surgery and osseointegration.
2. Learn systemic diseases that influence bone metabolism, osseointegration and implant treatment success.
3. Discuss antihypertensive and anticoagulation treatment and appropriate surgical treatment modifications.
4. Understand oral and intravenous bisphosphonate therapy and its impact on dental implant treatment protocols.
5. Discuss protocols for diabetics, smokers and patients with autoimmune disorders.
6. Discuss post-operative pain medications, NSAIDS effect on bone metabolism and necessary modifications.
7. Discuss prophylactic antibiotics and their indication for use in implant surgery.
8. Discuss L-PRF, L-PRP and its beneficial effect on implant dentistry and medically-complex patients.

PART III: Prevention and Treatment of Surgical Complications*

May 18, 2018 8:30-3:30 (6 CEU)

Fee: \$345. Register for all three courses: \$950

Objectives:

1. Common surgical complications related to implant placement position, removal and modification.
2. Discuss common concerns and complications with surgical stents for implant placement.
3. Discuss vascular anatomy, intra-operative hemorrhage, appropriate avoidance and emergency treatment.
4. Learn nerve injury etiology, classification and treatment.
5. Discuss post surgical incision line opening, one stage implant surgery and soft tissue concerns.
6. Discuss post surgical implant failure causes, avoidance and treatment options.
7. Discuss peri-implant mucositis and peri-implantitis identification and treatment options.
8. Learn to prevent and treat oral-antral communications / displaced implants.
9. Discuss sinus pathology and post surgical rhinosinusitis infection and treatment.

***Part II is highly recommended to those interested in enrolling in Part III.**

Dr. James A Oshetski, DDS

is a nationally recognized implant dentist and an expert on digitally-driven dental technology. He focuses on advanced restorative dentistry, sedation, and dental implant rehabilitations. He is a sought after educator for Biohorizons implant systems. He founded Oshetski Implant Seminars and an AAID study club in Maine to enhance educational opportunities in implant dentistry throughout New England. His focus of streamlining

Achievements in Implant Dentistry:

- American Board of Oral Implantology/Implant Dentistry (Diplomate)
- International Congress of Oral Implantologists (Diplomate/Fellow)
- American Academy of Implant Dentistry (Fellow)
- Academy of General Dentistry (Fellow)
- International College of Dentists (Fellow)

treatments, enhancing outcomes and sharing his experience with other dentist through mentorship and teaching is a testament to his commitment to his patients and the profession.

Location:

**The Daniel Hotel (banquet room)
10 Water Street, Brunswick, ME 04011**

All courses include a catered breakfast and lunch
