CONSENT FOR SERVICE

I acknowledge that no guarantee or assurance has been made by anyone regarding the dental treatment that I have requested and authorize. Despite the most diligent care and precaution, unanticipated complications or unintended results, although rare, may occur. A treatment plan is based on the best evidence available during the examination. There is no guarantee that this plan will not change. During treatment, it may be necessary to change or add procedures because of conditions that were not evident during examination, but were found during the course of treatment. Any changes in treatment plan may result in additional fees.

Treatment recommendations are based on information gained from diagnostic procedures and experience and may vary for similar situations. The ultimate goal of treatment is to assist you in attaining optimum dental health and appearance. We will discuss with you the most appropriate and ideal treatment plan as well as reasonable alternative treatment plans. We will also inform you of the likely dental prognosis for each of these treatment plans and dental prognosis if no treatment is initiated at this time.

Upon such diagnosis, I authorize Dr. Oshetski or the designated staff person to perform all recommended treatment mutually agreed upon by me and to employ such assistance as required providing proper care.

I also give permission to have you or assignee personally contact me of needed appointments through U.S. Mail, (postcard or letters), e-mail, and or voice messages at home or at work.

I consent to photography, video recording, and x-rays of my oral structures as related to these procedures, and for their educational use in lectures or publications, provided my identity is not revealed.

Lastly, I agree to be responsible for payment of all services rendered on my behalf or my dependents. I understand that payment is due at the time of service unless other arrangement have been made. I authorize the release of any information related to dental claims.

By signing this form you will consent to our use and disclosure of your protected health information to carry out treatment, payment activities, and healthcare operations.
